

PASS BOX

ELECTRICAL INTERLOCK

for critical environment

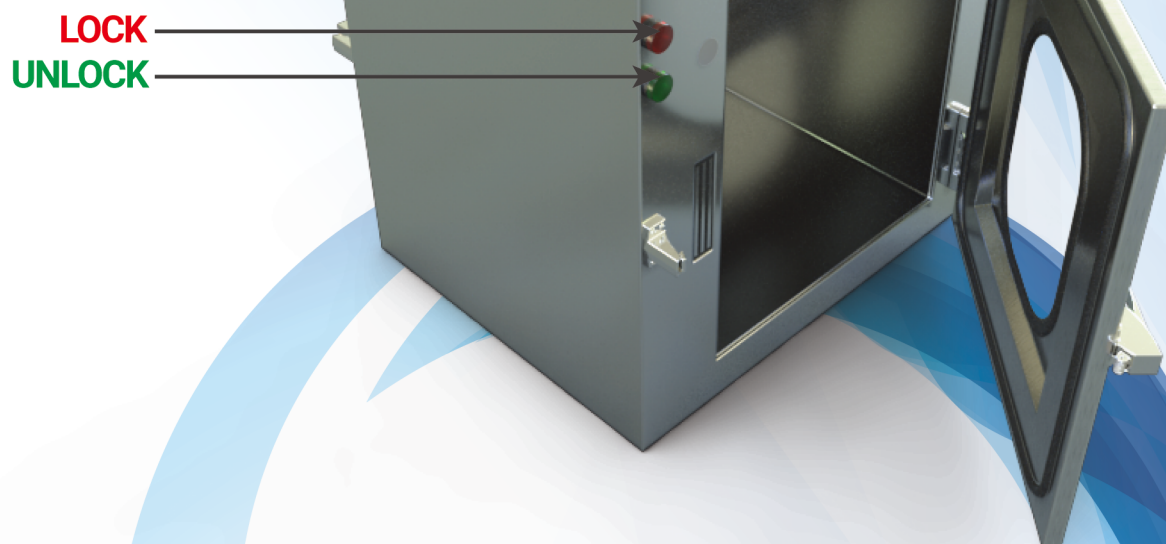

Pass Box is supporting equipment for clean room and pharmaceutical manufacturing facilities and laboratories. It can be used for passing the wares between clean room to clean room or clean room to non-clean room. It can decrease effectively the open times of clean room's door and minimize the contamination extent of clean area.

Body of the case is made of stainless steel grade **304** by folding and welding and its surface is treated with the interlock function, **electrical interlock**

PASS BOX

ELECTRICAL INTERLOCK

Type	PassBox
Model	PS-01
External size (W*D*H) mm	600*500*600
Internal size (W*D*H) mm	420*500*480
Material	304Stainless steel
Interlock	Electronical
Glass view Window (W*D*H)	225*530*5
Power Supply
